

ADDENDUM NO. ONE
REQUEST FOR PROPOSALS
ON-CALL SAND TRAP CLEANING SERVICES
PROJECT NO. 2245-24
CITY OF THORNTON, CO

TO: Prospective Proposing Firms and all others concerned

DATE: May 7, 2024

PURPOSE: To provide additional information and clarification to the solicitation documents for the above-referenced Project.

1. The following questions and answers are provided for additional clarification to the RFP.

Question 1: “Will the Contractor be responsible for replacing the sand removed from the Sand Traps? If so, will the City provide the sand or is will the Contractor be responsible for providing it?”

Answer 1: Yes. The Contractor will be responsible for both replacing and providing the removed sand.

Question 2: “Does the City have an existing profile set up for material disposal? Does the City have any sampling requirements prior to material disposal?”

Answer 2: No. There is not an existing profile for material disposal, nor are there any sampling requirements.

Question 3: “Is there an incumbent for these services? If so, can you please provide their name?”

Answer 3: There is not a current incumbent. The City has used several vendors to complete the clean-out services over the years, but this is the first On-Call Agreement the City has put in place for these services.

Question 4: “Are we permitted to submit a response without filling out the Unit Price Schedule in Exhibit C?”

Answer 4: Contractor’s fee is considered a selection factor for this proposal. Contractor’s are not required to submit pricing, but it will be difficult for the Selection Committee to fairly compare a proposal without pricing to a proposal with pricing included. However, Contractor’s are not required to provide a set unit rate for each tank to be cleaned. Contractor’s may include other pricing models such as an hourly rate if that is more appropriate. Please note that Contractor’s should include hourly rates regardless of the pricing model as part of the “T & M Billable Rates” section.

2. The Pre-Proposal Conference attendees were as follows:

Adam Terrazas – McDonald Farms
Erika Smith – Belfor Environmental
Corey Mclaughlin – Enviroserve
Ricardo Marquez – Enviroserve
Rober Lamorie- Enviroseve
Brenda Lenz – Enviroserve
Jay Perry – Environmental Works
Bob Kardoes – Ambipar Response

3. All other terms and conditions shall remain unchanged except as provided by this Addendum. Proposing firms must acknowledge receipt of this Addendum in their Proposal.

END OF ADDENDUM NO. ONE
