

ADDENDUM NO. ONE
REQUEST FOR QUOTATION
FISH FOR RESTOCKING THORNTON LAKES
PROJECT NO. 194-24
CITY OF THORNTON, CO

TO: Prospective Proposing Firms and all others concerned

DATE: December 9, 2024

PURPOSE: To provide additional information and clarification to the solicitation documents for the above-referenced Project.

1. The following questions and answers are provided for additional clarification to the RFQ. All answers from Thornton in response to Vendor submitted questions have been provided in **bold** text.

Question 1: What are the historical stocking data (species, size, quantity) for the lakes referred to in the RFQ for 2021-2024?

Answer 1: Thornton has provided an annual dollar amount of what has been issued for a purchase order each year. In the past, Thornton has purchased on a per pound per species basis, so there is no ability to provide a quantity of fish purchased.

Sizes of fish have depended upon availability, but typically range from fry to up to fourteen inches (14") in size. Generally, Thornton seeks larger sizes for the fall fishing derby that is held during Harvestfest. Attached at the end of this Addendum is a list of what species has been stocked in a given year at each location, with an "X" for items stocked by Thornton's current supplier, and a "X" for items stocked by the State of Colorado's Department of Wildlife.

Question 2: When is Thornton Harvestfest?

Answer 2: Typically the first weekend of October each year.

Question 3: How many deliveries per year does Thornton typically request?

Answer 3: Typically, there are two (2) deliveries per year, with one (1) in the late spring (e.g., May/June), and one (1) in the fall, approximately one (1) week prior to Harvestfest.

Question 4: Do multiple lakes/ponds get stocked in a single delivery or are individual lakes stocked randomly and independently as multiple deliveries?

Answer 4: Typically, there are two to three (2-3) ponds stocked for each delivery. Prior to delivery, the Vendor will coordinate a delivery date and time so that Thornton may provide personnel onsite to assist and confirm delivery.

Question 5: Who was the previously awarded company from 2021-2024?

Answer 5: This question is not germane to the Request for Quotation, nor should it effect a proposing Vendor's proposal submission.

2. All other terms and conditions shall remain unchanged except as provided by this Addendum. Proposing firms must acknowledge receipt of this Addendum in their Bid.

END OF ADDENDUM NO. ONE
